### Section 3: Financial Assistance and Project Budget

Choose the type of assistance being requested: (check all that apply)

Sales Tax Exemption Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Property Tax Exemption Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Mortgage Tax Exemption Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Tax Exempt IR Bond Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

Describe the reasons why the IDA's assistance is necessary, and the effect the Project will have on Applicant's operations. Focus on competitiveness issues, Project shortfalls, etc.

The project is not viable if fully taxed, and therefore the Project will not move forward without the Agency's financial assistance to bring cost (taxes) certainty to the Project. Tax certainty will allow the Project to move forward while providing fair compensation in the form of clean, discounted energy to the Town of Bath and the other municipalities within Steuben County.

In addition, the Project is within the NYSEG utility zone, which historically has lower electricity rates than other utilities (Central Hudson, Orange, Rockland, National Grid, etc). Consequently, in order for the Applicant to offer electricity at a discount to customers enrolled in Applicant's Community Solar Program, the revenue generated by the Project is expected to be lower than comparable projects in other areas. This results in returns below generally expected market returns on a solar project which would cause both financing parties and investors to seek investment elsewhere. The financial assistance provided by the Agency in terms of tax relief will provide financing parties and investors certainty in tax payments that will alleviate some of their risk on a Project with returns that are below market average.

Is there likelihood that the Project would not be undertaken but for the financial assistance provided by the IDA?

Yes  No

If the Project could be undertaken without financial assistance provided by the IDA, explain below why the Project should be provided financial assistance.

Not Applicable

What would be the impact on the Applicant and the associated municipalities if the IDA does not provide financial assistance?

Steuben County and the Town of Bath will lose an opportunity to have affordable clean energy that is accessible. Residents that would have enrolled in the Applicant’s Community Solar Program will lose the opportunity to receive a discount on their energy bills. The taxing jurisdiction will lose the opportunity to earn an amount greater than the current real property taxes being generated on the existing land. The landowner will lose the opportunity to earn rental income on private land.

**Full Environmental Assessment Form**  
**Part 2 - Identification of Potential Project Impacts**

Agency Use Only [If applicable]  
 Project : DRS - NY Bath (6105 Scudder Road), LLC  
 Date :

**Part 2 is to be completed by the lead agency.** Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

**Tips for completing Part 2:**

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

***Full Environmental Assessment Form***  
***Part 3 - Evaluation of the Magnitude and Importance of Project Impacts***  
***and***  
***Determination of Significance***

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

**Reasons Supporting This Determination:**

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Please refer to the attached Project Narrative.

**Determination of Significance - Type 1 and Unlisted Actions**

SEQR Status:  Type 1  Unlisted

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the  
Town of Bath Planning Board as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
