Siemens Energy

Project Number 4603 24 03

May 2024

## Project Description

Siemens Energy, Inc. operates across the whole energy landscape. From conventional to renewable power, from grid technology to storage to electrifying complex industrial processes. Over the past 24 months the company has made substantial investments to their Painted Post NY facility as they have consolidated NY operations to this location. To accommodate this growth the company has had to make improvements to the public water system to accommodate growing fire suppression needs and is now proposing additional water system improvements on site to meet these growing demands. The proposed work will include the installation of a fire main loop, fire pump house and ancillary piping/fittings to upgrade the existing system to meet the company's current fire suppression requirements. Without this work the insurance requirement for certain operations could place portions of the business at risk of relocating to other facilities outside the State.

**Jobs Retained** 530

**Job Created** 0

**Benefit to Cost Ratio** 168:1

**Estimated Project Completion Date** December 31, 2024

**Describe the reasons why the IDA's assistance is necessary, and the effect the Project will have on Applicant's operations. Focus on competitiveness issues, Project shortfalls, etc.**

The project is to install a fire main loop which will support the on-going operations for the site. Siemens Energy, Inc. is requesting a sales tax exemption for the material which will be utilized for these works to take advantage of the IDA exemption.

**Is there likelihood that the Project would not be undertaken but for the financial assistance provided by the IDA?**

Yes  No

**If the Project could be undertaken without financial assistance provided by the IDA, explain below why the Project should be provided financial assistance.**

Siemens Energy, Inc. would like to participate in the IDA Sales Tax Exemption in order to facilitate the contracting portion of the works. Due to increased pricing, as a result of inflationary and project cost increases, the project is in jeopardy of having the scope of work significantly reduced which changes the project outcome and goals and potentially the viability of moving forward with the project.

**What would be the impact on the Applicant and the associated municipalities if the IDA does not provide financial assistance?**

The project would be more difficult to commence as our project budget would be impacted by not receiving the sales tax exemption.
